This is where I ran out of yarn from the first skein. If you want to trim your hat in a different color or make tassels in a different color, you sure can.

I attached a new skein of yarn and started where I left off from the other at the end of Row 5. Now you will RSC in each stitch across the front of the hoodie hat. Make sure when you get to the other end of the front, put 2 rsc in the corner stitch. Now you will chain 1 and turn your work. You will be working along the back bottom edge of the hoodie hat. Put one Single Crochet in each stitch or space across. Place your hook where it is comfortable but make sure you do not put too many stitches or too little stitches. Too many stitches will cause your edge to ruffle or bump out. Too little stitches will make it tight and not fit right in the back. I had 36 single crochet stitches on my bottom edge. Sl st join to the beginning edge. Cut yarn and fasten off, weave in your ends.

Now it is time to make the tassels.

I took a book that was about 6" wide and wrapped the yarn around it 20 times. Cut the end and slipped a piece of yarn under one end and tied it very tight. I slid it off the book and cut the loops on the other end (the end that I didn't tie). I took a long piece of yarn and wrapped it around the top about an inch down from where I tied. I made a tight knot and double tied it after that to make sure it wouldn't come loose. I trimmed the ends to my liking and then used the tie at the top to attach it to a corner of the hat. I made two more and put one on the top back of the hood where you first started your hat, and the other on the opposite corner of the first one! Tie in all your ends and you are done!
